The HR community plays an important role in supporting a culture of inclusion in our workplace and at Cornell, which enables each and every one of us to flourish.

The HR Diversity Council develops, implements, and evaluates initiatives that lead to greater diversity and inclusion throughout our division and HR community. Our charge is to:

- Align HR’s Toward New Destinations efforts with the university’s overall goals;
- Advise the division’s senior leadership on diversity issues;
- Drive a diversity communication strategy; and
- Reinforce a workplace that values diversity and inclusiveness within the division, and in turn influences culture throughout the university.

TND Goals FY2018
As part of Toward New Destinations, the HR Diversity Council has adopted three initiatives that we will work toward during the 2018 fiscal year. Progress on these initiatives will be reported to the HR Community via the monthly Diversity Brief email. Our 2018 initiatives are:

- **HIRING: (Year 2 of ongoing initiative)** Cultivate successful partnerships with identified organizations; implementation of tool for translating military occupational specialty codes; development of a process map and designated audit points for the search process; pilot of tool to write more inclusive position descriptions; an increase in the number of postings sent to organizations for advertising; an increase in the number of applicants from these populations; an increase in hires made from these populations.

- **INTERGENERATIONAL PROGRAM: (Year 2 of ongoing initiative)** The pilot programs launched in 2016-17 received mixed reviews. While participants favored the opportunity to discuss generational differences with colleagues, they found the content presented to be less applicable and not specific to their roles. Using the feedback and the lessons learned from the pilot programs, we will revise both programs to shift the focus to understanding the business case for hiring and retaining millennials, reviewing workforce trends both nationally and at Cornell, and identifying specific actions that HR professionals should take in order to ensure they are creating a welcoming workplace environment for millennials.

- **DISABILITY PROGRAMS: (Year 2 of ongoing initiative)** Thirty percent of respondents to the HR staff survey self-identified as individuals with disabilities, and 85% of these indicated their disabilities were invisible. Participants who indicated they were apprehensive about disclosing their disabilities in the workplace cited concerns...
that co-workers would perceive them as lazy or unable to do the work required of them. Using the firsthand experience of our colleagues with disabilities, we will design a training program for all HR staff focused on understanding invisible disabilities and creating a more welcoming workplace. Additionally, we will develop and implement a set of standard procedures to be followed for all division-wide or large meetings within HR to proactively ensure we are creating an inclusive environment for IWDs.
