

## COVID-19 Workplace Guidance

### COVID-19 Vaccine Support

Important information about vaccine eligibility, documentation, and how to schedule a vaccination appointment.

## Testing

- [Testing frequency](#)

Faculty and staff are able to request changes to their testing frequency via the [Daily Check website](#).

- [Symptomatic testing](#)

*Supplemental and surveillance testing are not to be used by individuals who are ill or believe they may have been exposed. In these cases, please consult your physician and get a [diagnostic test](#) at the Cayuga Medical sampling site to rule out COVID.*

- [Testing for remote employees](#)

*[Supplemental testing](#) began for faculty and staff on Monday Nov. 30*

- [Testing for family members](#)

*[Supplemental testing](#) and [surveillance testing](#) are only for Cornell faculty and staff. Tests at the [Cayuga Medical sampling site](#) are available for free to Tompkins County Residents; non-residents may be charged a \$99 fee.*

# Quarantine

---

- Handling suspected and confirmed COVID-19 cases among employees

Employees, supervisors and human resources representatives are responsible for reporting employees with confirmed COVID-19 test results or an order to quarantine or isolate, resulting from a known or suspected exposure to the virus, through appropriate channels.

- Exceptions to COVID-19 Orders of Quarantine

NYS regulations permit an exception to quarantine for employees determined to be “essential”.

# Travel

---

- Employee travel guidelines

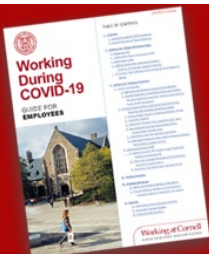

New York state guidelines for residents and visitors entering NYS from a noncontiguous state or country designated under a CDC level 2 or 3.

- Non-essential business travel

Non-essential business travel is prohibited, a restriction that has been extended through at least May 15, 2021.

- Holiday gatherings and travel

Avoid unnecessary travel and to continue to follow all public health guidance. Centers for Disease Control [tips on holiday celebrations and small gatherings](#).
