Daily Check

The Daily Check is used by employees to upload proof of booster vaccination, schedule supplemental tests, view their surveillance testing schedule if applicable, self-report positive tests, and access other important information.

Daily Health Screening for Symptomatic Individuals

In accordance with the NY HERO Act, all Cornell faculty and staff will continue to get a daily email reminding them to conduct a symptom assessment; however, you will only need to complete the Daily Check health assessment if you are experiencing COVID-19 symptoms. Students are not required to complete the Daily Check at this time.

It is important to recognize and appreciate that you play a key role in fostering a healthy workplace and community so if you are ill, do not come to campus. Please consult with your primary care physician. Students may also seek care with Cornell Health.

When experiencing COVID-19 symptoms, employees are expected to:

- Complete the Daily Check health assessment before arriving on campus; you will be flagged yellow and should stay home until you are cleared to go to campus
- Set up a telemedicine appointment immediately and complete the appointment within 1-4 hours of turning red in Daily Check. Schedule an appointment by using the link in your Daily Check portal or by calling 607-319-5800,
- Follow all medical guidance, and
- Adhere to their required testing schedule.
