Session Schedule

Registration Information: 2022

- Registration opens at 9:00 AM on Tuesday June 28th, 2022. Registration will close on Friday July 8, 2022 at 5:00 PM.

- Both days of programming offer identical sessions. Due to the popularity of this program we are limiting registration to only one day to ensure everyone has an opportunity to participate.

- Sessions requiring registration are age appropriate for 8 - 16 years old. Youths under the age of 8 may participate in our campus wide scavenger hunt.
- If you do not have internet or computer access during the morning of registration you may request to complete a paper registration and return to 130 Day Hall prior to registration day. A team member will enter your paper registration when the form opens, not prior. Also check out our FAQ page for other suggestions on how to register and more details about the paper registration form.

Tips for Parents:

- Talk with your child about what activities they want to do BEFORE registration opens on June 28th.

- **You can only register for one day of programming per child**

- We would recommend having a 1st, 2nd, and 3rd choice ready for each block of sessions.

- Some of our learning opportunities are very popular and are filled within minutes of registration opening.

- If you are waiting online for the registration page to go live at 9 am, you may have to refresh the page at 9am to begin interacting with the registration system.

- Due to high volume of inquiries on the day of registration we will do our best to respond to you as quickly as possible. We appreciate your patience and understanding. Please contact bring_a_child@cornell.edu if you have any questions, concerns, or accessibility needs.
