Learn more about Lean at Cornell, so that you, too, can improve your work life.

Our goal is to help teams fit their work into a normal-sized work day, rather than feeling compelled (and needing) to take work home at night or on the weekends.

What is Lean?

Lean is a process-improvement tool that Cornell began using in January 2013, to help teams address their workload challenges

See the Results

Since launching, Lean has engaged 82 teams (as of April 2016) and is celebrating many successes with those teams
