- Tutorials (immediately available by clicking on headings at left)
- Job Aids (immediately available by clicking job aids for listing.)
- Hands-on Training and Open Forums through CU Learn sign-up (see below)

If you are new to Workday and want to begin learning about the project and how Workday works in general, we suggest you start with the self-paced tutorials entitled Fundamentals of Workday: Overview and Fundamentals of Workday: Foundations, located under General Information in the left navigation menu. Topics that will be covered include:

- Organizations
- Roles
- Business Processes
- Navigation

Note: Although Workday is a very intuitive program, we strongly recommend that, before logging on, you take the Fundamentals hands-on training described above or review other on-line tutorials listed at the left. Optional Open Forums—for MGMT Partners and HR Partner only—may be scheduled in the future. If you'd like to attend one of these optional open forums, please access CU Learn to register.
