A. Investment Option Fees Attributable to Recordkeeping

Investment Option name	Ticker	Investment Option Fees Attributable to Recordkeeping*
Vanguard Long-Term Investment-Grade Fund Admiral Shares	VWETX	0.00%

*For Fidelity funds, the rate displayed is used to calculate payments to a nonaffiliated recordkeeper to support certain services for Fidelity funds. In the case of Fidelity funds that are offered only to Fidelity recordkept plans (other than multi-manager funds), the rate is based on the payments Fidelity receives from comparably priced funds that make such payments. In the case of Fidelity multi-manager funds (which may hold Fidelity and nonproprietary funds), the rate is based on the rate that would be used to calculate payments to a nonaffiliated recordkeeper for a Fidelity fund of a similar asset class that does not hold nonproprietary funds although any payments that may be received in connection with any nonproprietary funds held by the fund range from 0 to 40 bps. With respect to nonproprietary funds, the rate displayed is used to calculate payments Fidelity receives pursuant to a contract or arrangement between Fidelity and the fund service provider, contract issuer or fund under which Fidelity provides certain services to that fund service provider, contract issuer or fund. These payments are used to support Fidelity's services to the plan and are considered indirect compensation under the 408(b)(2) regulation. Investment option fees attributable to recordkeeping do not include additional value that may be provided for certain Fidelity funds.

B. Investment Disclosures

Fidelity may receive a payment from American Fund Distributors (AFD) for among other things, to compensate Fidelity for providing them access to financial intermediaries and investors in certain Fidelity channels, a platform to support the provision of investment guidance and service to such financial intermediaries and investors, when applicable, and to promote operational efficiencies. As described in American Fund prospectuses, AFD has discretion as to the amount of the payment, if any; the criteria to determine any payment includes sales, assets, and cash flows as well as qualitative factors. It is anticipated that the payment would not exceed .08% annually of American Fund assets in all retail, workplace and intermediary channels maintained by Fidelity, subject to certain exclusions.

Fidelity may receive an annual product fee of up to \$2,000 if aggregate assets held in that product across in all retail, workplace and intermediary channels maintained by Fidelity are less than \$1.5 million.

Fidelity may receive a fee from unaffiliated product providers to compensate Fidelity for maintaining the infrastructure to accommodate unaffiliated products. The fee is a fixed amount that typically equates to less than 0.05% of a product provider's assets in all retail, workplace, and intermediary channels maintained by Fidelity and does not vary based on a plan's offering of an unaffiliated product supported by Fidelity. In addition, such unaffiliated product providers may pay Fidelity initial start-up fees, product add, and maintenance fees as well as a provider minimum monthly fees. These fees are not in connection with Fidelity's services to the plan and are not considered indirect compensation under the 408(b)(2) regulations.
