If so, are the treatments or the reduced number of hours of work medically necessary? ___No ___Yes.

Estimate treatment schedule, if any, including the dates of any scheduled appointments and the time required for each appointment, including any recovery period._____________________.

____________________________________________________________________________________

Estimate the part-time or reduced work schedule the employee needs, if any:___________ hour(s) per day; ___________ days per week

9. Will the condition cause episodic flare-ups periodically preventing the employee from performing his/her job functions? ____No ____Yes.

Is it medically necessary for the employee to be absent from work during the flare-ups? ____ No ____ Yes. If yes please explain:_____________________.

____________________________________________________________________________________

Frequency:_________# times per _____Week or _______Month

For: _______# hours or _______# day(s) per episode

Type of practice/ Medical Specialty:

____________________________________________________________________________________

Telephone: (_____) ___________________

Fax: ________________________________

Address: ______________________________

Signature of Health Care Provider: ________________________________

Date: ________________________________
Description of Serious Health Condition:

825.113 Serious health condition.

(a) For purposes of FMLA, “serious health condition” entitling an employee to FMLA leave means an illness, injury, impairment or physical or mental condition that involves inpatient care as defined in §825.114 or continuing treatment by a health care provider as defined in §825.115.

(b) The term “incapacity” means inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment therefore, or recovery therefrom.

(c) The term “treatment” includes (but is not limited to) examinations to determine if a serious health condition exists and evaluations of the condition. Treatment does not include routine physical examinations, eye examinations, or dental examinations. A regimen of continuing treatment includes, for example, a course of prescription medication (e.g., an antibiotic) or therapy requiring special equipment to resolve or alleviate the health condition (e.g., oxygen). A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed-rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.

1. § 825.114 Inpatient care.

Inpatient care means an overnight stay in a hospital, hospice, or residential medical care facility, including any period of incapacity as defined in §825.113(b), or any subsequent treatment in connection with such inpatient care.

2. § 825.115 Continuing treatment.

A serious health condition involving continuing treatment by a health care provider includes any one or more of the following:

(a) Incapacity and treatment. A period of incapacity of more than three consecutive, full calendar days, and any subsequent treatment or period of incapacity relating to the same condition, that also involves: (1) Treatment two or more times, within 30 days of the first day of incapacity, unless extenuating circumstances exist, by a health care provider, by a nurse under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider; and (2) Treatment by a health care provider on at least one occasion, which results in a regimen of continuing treatment under the supervision of the health care provider. (3) The requirement in paragraphs (a)(1) and (2) of this section for treatment by a health care provider means an in-person visit to a health care provider. The first (or only) in-person treatment visit must take place within seven days of the first day of incapacity. (4) Whether additional treatment visits or a regimen of continuing treatment is necessary within the 30-day period shall be determined by the health care provider.

3. (b) Pregnancy or prenatal care. Any period of incapacity due to pregnancy, or for prenatal care.

4. (c) Chronic conditions. Any period of incapacity or treatment for such incapacity due to a chronic serious health condition. A chronic serious health condition is one which: (1) Requires periodic visits (defined as at least twice a year) for treatment by a health care provider, or by a nurse under direct supervision of a health care provider; and (2) Continues over an extended period of time (including recurring episodes of a single underlying condition); and (3) May cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.).

5. (d) Permanent or long-term conditions. A period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective. The employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider. Examples include Alzheimer’s, a severe stroke, or the terminal stages of a disease.

Genetic Information Nondiscrimination Act (GINA) FMLA Certification Disclosure

The Genetic Information Nondiscrimination Act of 2008 (GINA) prohibits employers and other entities covered by GINA Title II from requesting or requiring genetic information of an individual or family member of the individual, except as specifically allowed by this law. To comply with this law, we are asking that you not provide any genetic information when responding to this request for medical information. ‘Genetic information,’ as defined by GINA, includes an individual’s family medical history, the results of an individual’s or family member’s genetic tests, the fact that an individual or an individual’s family member sought or received genetic services, and genetic information of a fetus carried by an individual or an individual’s family member or an embryo lawfully held by an individual or family member receiving assistive reproductive services.
